SRINATH GOWDA S M

ASPIRING SOFTWARE ENGINEER

Passionate about problem-solving and hands-on projects, I am eager to leverage my skills in web development, data science, machine learning, and cybersecurity to contribute to innovative solutions in a dynamic environment.

SKILLS

- Data Structures & Algorithms
- Python
- Java
- MySQL
- HTML/CSS
- JavaScript/PHP
- AWS
- Adobe Photoshop/Premiere pro

PERSONAL PROJECTS

- **IoT Enabled Sleep Detection Sunglass**
 - Developed an IoT-based system to detect driver drowsiness using **Arduino Uno** and integrated **IR Sensor**. The device automatically triggers a buzzer or applies brakes when drowsiness is detected, aiming to prevent accidents.
- **Event Management Website**
 - Designed an event management platform that streamlines planning, registration, and booking. The website offers tools for scheduling, guest management, and analytics, developed using **HTML**, **CSS**, **JavaScript** (**React.js** & **Node.js**), and **MySQL** for database functionality.

WORK EXPERIENCE

- **Azure DevOps**
Seminar Room 06/2024 - 06/2024
 - It encompasses a suite of tools and services for software development and deployment, integrating seamlessly with various technologies such as **AWS** for cloud computing, **Docker** for containerization, **Linux** as Operating System and **GitHub** for version control and collaboration.
- **Cyber Security**
CodonACCI TM (TecCera Innovations) 11/2023 - 12/2023
 - Understanding the evolving landscape of cyber crime, including **ransomware**, **phishing**, **DOS (Denial of Service)** and hands-on experience with tools like **Wireshark** and **Nmap**
- **Web Development**
JV Global Technologies 11/2022 - 12/2022
 - Developed an interactive restaurant finder website using **HTML**, **CSS**, **JavaScript**, **PHP**, and **MySQL** for database management. Integrated **Google Maps API** for location and review features.
